DETAILED ACTION

1. This action is responsive to the Applicant's amendment filed on 10/25/2004.
2. Claims 1 – 268 are allowed.

Drawings

3. The drawing amendments filed on 10/25/2004 are acknowledged. The drawings filed on 4/20/2001 along with the drawing amendments of 10/25/2004 are acceptable.

Allowable Subject Matter

4. Prior art taken either singly and/or in combination, does not teach or disclose a method as recited in independent claims 1, 10, 20, 167, 176, and 185; a computer-readable medium as recited in independent claims 194, 203, 213, 222, 231, and 240; and a system as recited in claims 249, 259, and 268 with the following features:

generating a transient meta model which stores a language-neutral representation of the source code, and displaying a graphical representation of the source code generated from the language neutral representation in the transient model.

Art Unit: 2124

The closest prior art is Pazel, U.S. Patent 5,410,648, which discloses a graphical representation of source code by receiving a breakpoint and locating the portion of the code corresponding to the breakpoint in a visually distinctive manner with highlighting, but does not disclose generating a transient meta model which stores a language-neutral representation of the source code, and displaying a graphical representation of the source code generated from the language neutral representation in the transient model.

Thus all remaining dependent claims 2 – 9; 11 – 19; 21 – 166; 168 – 175; 177 – 184; 186 – 193; 195 – 202; 204 – 212; 214 – 221; 223 – 230; 232 – 239; 241 – 248; 250 – 258; and 260 – 267 are also allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
